Fuel & Equipment Control

Diesel control for fleets, cranes and DG sets — every litre accounted for.

Every fill
photo-verified

Tanker & pump
stock tracked

Owned vs
contract vehicles

Per-hour
& per-km consumption

Track diesel from tanker and pump stock to every vehicle and machine. Owned vs contract vehicles, a photo for every fill, and consumption analysis that stops leakage.

Fuel stock

- Tanker and pump stock
- Purchase and receipt of diesel
- Dip readings and variance
- Filling station sales

Issues

- Issue per vehicle, crane, DG set
- Photo required for each fill
- Meter / hour readings
- Mobile entry at the pump

Vehicles & equipment

- Owned and contract vehicles
- Equipment master
- Contractor diesel recovery
- Maintenance reminders

Analysis

- Consumption per hour / km
- Abnormal consumption alerts
- Vehicle-wise cost
- Diesel posted to Books

How it flows

STEP 1
Receive
Diesel into tanker / pump

STEP 2
Issue
With photo & reading

STEP 3
Recover
From contract vehicles

STEP 4
Analyse
Consumption & variance

STEP 5
Post
Cost into Books
